BARNWELL BESPOKE... sourced, assembled, packed and branded - a unique service to industry!

Barnwell is the only company that offers a special Bespoke Kits Service to industry. Specially tailored kits are assembled, then packaged and branded with our customers' own logos. Part numbers and descriptions are also added.

We hold vast stocks of quality Oil Seals, 'O' Rings, Washers, Gaskets, Rubber Mouldings, Adhesives and Lubricants. We can create a kit containing our core products, or a mix of these and our customers' own components, in fact in any combination that is required!

Previously, customers would have engaged a third party to package the products, but now they are received ready-packed and branded for them, thus removing a costly and time-consuming exercise from their production process. Customers that are currently enjoying the benefits of this superb service include:

Agco (Massey Ferguson), TRW, Delphi, RS Components, Rexroth Bosch, CompAir, Perkins Engines, CNH and McCormick Tractors International.

To find out more about how Barnwell can help you make the most of your own resources telephone now!
